Brand: Kemmler GmbH

Order no.: 702.3.16

Application:

Alignment of component reference surfaces or edges. Determination of bore centres to the machine spindle.

Note:

The spring-mounted spherical tip protects the unit from damage if contact is too strong. Functional parts hardened and ground. Concentricity: ± 0.01 mm.

When contact between the spherical tip and metal component occurs, the control lamp lights up = identification of the reference point.
