The tool inserts are made of oil-resistant, break-proof and impact-resistant ABS plastic and are noted for their tailored inner struts. The tapered tool holder is thus optimally centred.

The insert is clicked into our grid system with a clip and can be moved in steps of 25 mm without a tool.

Nubs on the top of the inserts.

In this way, no adhesion occurs and the tool is prevented from attaching itself by vacuum

All tool sizes can be combined
